

Epoxy flooring offers several benefits including: exceptional durability, resistance to chemicals and wear and tear, a seamless design, aesthetic appeal with various color options, ease of cleaning, slip-resistant properties, and the ability to withstand heavy traffic, making it ideal for industrial and commercial settings.

Epoxy repair/maintenance with seal coat finish night or day work projects:

- 75 square foot or less: \$3,000.00 flat fee projects
- 75- 350 square foot: \$4,500.00 flat fee. Two trips are required.
- Projects 350 square foot and higher will be priced by job; however, an estimate of \$12.86 per square foot

Epoxy cove base with seal coat finish night or day projects:

- Projects up to 50 L/ft: \$2,500.00 flat fee
- Projects 50-100 L/ft: \$50.00 per linear ft
- Projects 100 L/ft and higher will be priced by job.

Attached is the Poly-Crete SLB and Dur-A-Quartz product information and data.

Both applications can be used depending on the needs of the customer, conditions of the existing floor, and time frames that would need to be met.
